A BILL

To ensure that certain Federal infrastructure programs require the use of materials produced in the United States, and for other purposes.

- 1 *Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*
- 2 **SECTION 1. SHORT TITLE.**
- 3 *This Act may be cited as the “Build America, Buy*
- 4 *America Act”.*

1 **SEC. 2. FINDINGS.**

2 Congress finds that—

3 (1) the United States must make significant in-
4 vestments to install, upgrade, or replace the public
5 works infrastructure of the United States;

6 (2) with respect to investments in the infra-
7 structure of the United States, taxpayers expect that
8 their public works infrastructure will be produced in
9 the United States by American workers;

10 (3) United States taxpayer dollars invested in
11 public infrastructure should not be used to reward
12 companies that have moved their operations, invest-
13 ment dollars, and jobs to foreign countries or foreign
14 factories, particularly those that do not share or
15 openly flout the commitments of the United States
16 to environmental, worker, and workplace safety pro-
17 tections;

18 (4) in procuring materials for public works
19 projects, entities using taxpayer-financed Federal as-
20 sistancee should give a commonsense procurement
21 preference for the materials and products produced
22 by companies and workers in the United States in
23 accordance with the high ideals embodied in the en-
24 vironmental, worker, workplace safety, and other
25 regulatory requirements of the United States;

1 (5) the benefits of domestic content preferences
2 extend beyond economies;

3 (6) by incentivizing domestic manufacturing,
4 domestic content preferences reinvest tax dollars in
5 companies and processes using the highest labor and
6 environmental standards in the world;

7 (7) strong domestic content preference policies
8 act to prevent shifts in production to countries that
9 rely on production practices that are significantly
10 less energy efficient and far more polluting than
11 those in the United States;

12 (8) for over 75 years, Buy America and other
13 domestic preference laws have been part of the
14 United States procurement policy, ensuring that the
15 United States can build and rebuild the infrastructure
16 of the United States with high-quality Amer-
17 ican-made materials;

18 (9) Buy America laws create demand for do-
19 mestically produced goods, helping to sustain and
20 grow domestic manufacturing and the millions of
21 jobs domestic manufacturing supports throughout
22 product supply chains;

23 (10) as of the date of enactment of this Act,
24 domestic procurement preference policies apply to all

1 Federal Government procurement and to various
2 Federal-aid infrastructure programs;

3 (11) a robust domestic manufacturing sector is
4 a vital component of the national security of the
5 United States;

6 (12) as more manufacturing operations of the
7 United States have moved offshore, the strength and
8 readiness of the defense industrial base of the
9 United States has been diminished; and

10 (13) domestic procurement preference laws—

11 (A) are fully consistent with the inter-
12 national obligations of the United States; and

13 (B) together with the government procure-
14 ments to which the laws apply, are important
15 levers for ensuring that United States manufac-
16 turers can access the government procurement
17 markets of the trading partners of the United
18 States.
